STOCK ANALYZER WEB 1.0

END USER LICENSE AGREEMENT

Version 2026-10-web-v1

IMPORTANT: PLEASE READ THIS AGREEMENT CAREFULLY. BY SELECTING "I ACCEPT", ACTIVATING A LICENSE, INSTALLING, COPYING, OR USING THE SOFTWARE, YOU AGREE TO THIS AGREEMENT. IF YOU DO NOT AGREE, DO NOT USE THE SOFTWARE.

1. LICENSOR AND SOFTWARE

This End User License Agreement ("Agreement") is between the person or entity using the software ("you") and TAWILIS, UEN 53532023W ("TAWILIS"). It applies to Stock Analyzer Web 1.0 (the web edition of Stock Analyzer, which runs as a web server on a computer you control and is used through a web browser), related files, documentation, updates supplied by TAWILIS, and associated components (collectively, the "Software").

Stock Analyzer Web 1.0 is sold separately from the desktop edition, Stock Analyzer 1.0. A license, license key, or license file for one edition does not license or activate the other.

2. LICENSE - ONE INSTALLATION ON ONE HOST COMPUTER

Subject to payment or other authorization accepted by TAWILIS and to this Agreement, TAWILIS grants you a limited, revocable, non-exclusive, non-transferable license to install and run one licensed copy of the Software on one computer at a time (the "Host Computer") and to use it through a web browser for your own lawful internal use. You may open the Software from your own devices that can reach the Host Computer, subject to section 11A. The Software is licensed for use by you; you must not make it available to other persons or organizations, or operate it as a service for others.

Where TAWILIS offers a free trial, the trial lasts for the period shown in the Software, is for evaluation only, and applies to one Host Computer. You must not reset, extend, bypass, falsify, manipulate, or circumvent any trial period, trial records (including by deleting, moving, or reinstalling program or trial files), system clock checks, activation controls, or other technical restrictions, except to the extent such a restriction is prohibited by applicable law.

3. ACTIVATION

The Software must be activated before use. You may activate it by entering the license key issued with your purchase (for example, in your purchase receipt email) or by importing a digitally signed license file issued by TAWILIS. Online activation requires an internet connection once. After activation the Software works offline; when an internet connection is available it checks the license with the TAWILIS License Service from time to time (at most about once a week), so that TAWILIS can switch off a

refunded, cancelled or charged-back license (see section 17). If the check cannot be completed, for example because you are offline, the Software keeps working.

Each purchase may be activated for one installation on one Host Computer. The activation is bound to that installation and computer: activating the same purchase for another installation or on another computer will be refused, and copying the program folder to another computer, or a fresh installation, needs a new activation. If you permanently replace your Host Computer, reinstall the Software, or make a material hardware change, contact TAWILIS. Any transfer or replacement activation is subject to verification and approval by TAWILIS, subject to applicable law.

4. SALES CHANNELS AND LICENSE CREDENTIALS

The Software may be supplied by TAWILIS directly or through an authorized marketplace, distributor, or reseller such as Gumroad. A marketplace purchase does not change this Agreement unless TAWILIS expressly agrees otherwise in writing.

License keys, signed license files, activation credentials, and activation records are personal to the authorized license. You must not publish, share, sell, rent, sublicense, transfer, disclose, distribute, or reuse a license credential to activate another installation or computer in breach of this Agreement.

5. PERMITTED USE

You may use the Software for your own lawful analytical and decision-support purposes. The Software is licensed, not sold. TAWILIS retains all rights not expressly granted under this Agreement.

6. RESTRICTIONS

Except to the extent a restriction is prohibited by applicable law, you must not: (a) copy or distribute the Software except for a reasonable backup for your own licensed use; (b) resell, rent, lease, sublicense, share, publish, or commercially redistribute the Software or any license key, license file, or activation credential; (c) reverse engineer, decompile, disassemble, decode, extract, reconstruct, discover, or attempt to obtain the source code, algorithms, licensing secrets, or protected implementation; (d) remove or alter copyright, trademark, licensing, or proprietary notices; (e) bypass or interfere with trial, licensing, activation, or installation-binding controls; (f) use the Software or its code to create or assist in creating an unauthorized copy, derivative commercial product, competing product, or substantially similar software; (g) allow another person or organization to exercise rights not granted to them; or (h) offer, host, or operate the Software, or access to it, as a service for any other person or organization.

7. OWNERSHIP AND INTELLECTUAL PROPERTY

The Software, source code, object code, interface, documentation, branding, designs, methodologies embodied in protectable expression, and related intellectual property are owned by TAWILIS or its licensors. No ownership rights are transferred to you. Third-party libraries, market data, names, and other third-party materials remain subject to their respective rights and terms.

8. ANALYTICAL SOFTWARE - NOT INVESTMENT ADVICE

The Software is an analytical and decision-support tool. It does not provide personalized investment, financial, legal, tax, accounting, brokerage, fiduciary, or other regulated professional advice. TAWILIS does not act as your broker, investment adviser, portfolio manager, fiduciary, or agent. BUY, WATCH, WAIT / NOT A BUY, scores, technical readings, entry levels, stops, targets, position-sizing estimates, and other outputs are automated analytical outputs, not instructions or guarantees.

You are solely responsible for deciding whether, when, and how to trade or invest and for independently verifying all information before acting.

9. MARKET AND TRADING RISK

Trading and investing involve risk, including loss of some or all capital. Prices can move rapidly, gaps can occur, stops may not execute at an expected price, liquidity can change, and historical patterns may not repeat. No output of the Software guarantees a profitable trade, limits losses, predicts future performance, or assures that an indicated price will be available.

10. MARKET DATA - YOUR OWN DATA ACCOUNTS

TAWILIS does not supply market data. The Software obtains data only through data accounts that you set up and control, such as your own brokerage account's API access (for example Tiger Brokers, moomoo/Futu, or Interactive Brokers), your own Finnhub API key, and your own subscription to an end-of-day data service that you choose (for example EODHD or Tiingo), together with publicly available official data such as U.S. Treasury yield rates.

The Software also downloads the publicly available release schedules of the U.S. Bureau of Labor Statistics, Bureau of Economic Analysis and Census Bureau for its US Data Releases calendar, and saves the last copy on the Host Computer. These requests go directly to those agencies and identify the Software by name and the TAWILIS support email address; they include no personal information about you, although, as with any internet request, your internet address is visible to the site. Release dates and times are set by the agencies and can change; confirm important dates with the issuing agency.

You are responsible for opening and maintaining those accounts, for any fees, subscriptions, or account requirements they impose, and for using their data in accordance with their terms. The data available to the Software depends on what your accounts can access. Data may be delayed, incomplete, inaccurate, unavailable, limited in quantity, changed, or discontinued. Where data is not available, the Software shows it as not available and excludes it from calculations rather than estimating it. TAWILIS does not control these services and does not guarantee their availability, accuracy, timeliness, or compatibility.

Your API keys and broker configuration files are stored only on the Host Computer and are used only to connect to the services you configured. TAWILIS does not receive them.

11. USER RESPONSIBILITIES

You are responsible for maintaining a suitable Host Computer (kept running and awake while you use the Software), internet connection where required, lawful access to any third-party service, backups of your records, and the security of your sign-in details, license key, license file, API keys, and broker configuration files. You must verify important prices, calculations, dates, corporate actions, market information, and trade parameters before relying on them.

11A. HOSTING, NETWORK ACCESS, AND SECURITY

By default the Software can be opened only in a web browser on the Host Computer itself. If you configure it to be reachable from other devices, from your local network, or from the internet, you do so at your own risk and you are solely responsible for that configuration and for the security of the Host Computer and your network, including protecting the connection with HTTPS or an equivalent secure tunnel or virtual private network, using a strong password, keeping the Host Computer and its operating system up to date, and restricting who can reach the Software. Your trades, portfolio records, sign-in records, API keys, and broker connections are stored on or reached through the Host Computer.

To the maximum extent permitted by applicable law, TAWILIS is not responsible for unauthorized access, loss, disclosure, or misuse of data, accounts, or connected services resulting from how you host, configure, expose, or secure the Software, the Host Computer, or your network.

12. UPDATES, SUPPORT, AND COMPATIBILITY

Unless TAWILIS expressly agrees otherwise in writing, purchase of a license does not create an obligation to provide technical support, maintenance, bug fixes, updates, upgrades, new features, compatibility changes, data-service replacements, or future versions. TAWILIS may choose to provide any of these at its discretion and may impose separate terms or charges for future versions or services. Brokers and data providers may change their services in ways that affect the Software.

13. SOFTWARE PROVIDED "AS IS"

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THE SOFTWARE AND DOCUMENTATION ARE PROVIDED "AS IS" AND "AS AVAILABLE", WITH ALL FAULTS AND WITHOUT WARRANTIES, REPRESENTATIONS, CONDITIONS, OR GUARANTEES OF ANY KIND, WHETHER EXPRESS, IMPLIED, STATUTORY, OR OTHERWISE, INCLUDING WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, ACCURACY, NON-INFRINGEMENT, AVAILABILITY, OR ERROR-FREE OPERATION.

Nothing in this Agreement excludes any warranty, condition, right, or remedy that cannot lawfully be excluded.

14. LIMITATION OF LIABILITY

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, TAWILIS WILL NOT BE LIABLE FOR INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, PUNITIVE, OR CONSEQUENTIAL LOSS OR DAMAGE; LOSS OF PROFITS, REVENUE, BUSINESS, OPPORTUNITY, GOODWILL, DATA, OR ANTICIPATED SAVINGS; TRADING OR INVESTMENT LOSSES; OR LOSS ARISING FROM THIRD-PARTY DATA OR SERVICE FAILURE, EVEN IF ADVISED OF THE POSSIBILITY.

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, TAWILIS'S TOTAL AGGREGATE LIABILITY ARISING OUT OF OR RELATING TO THE SOFTWARE OR THIS AGREEMENT WILL NOT EXCEED THE AMOUNT YOU ACTUALLY PAID FOR THE PARTICULAR PURCHASE GIVING RISE TO THE CLAIM.

Nothing in this Agreement excludes or limits liability that cannot lawfully be excluded or limited, including any liability for which exclusion or limitation is prohibited by applicable law.

15. INDEMNITY

To the extent permitted by applicable law, you agree to indemnify and hold TAWILIS harmless from third-party claims, losses, liabilities, and reasonable costs arising from your unlawful use, unauthorized distribution, licensing circumvention, breach of a third-party data provider's terms, or material breach of this Agreement, except to the extent caused by TAWILIS's own liability that cannot lawfully be excluded.

16. TERMINATION

Your rights under this Agreement terminate automatically if you materially breach its licensing, distribution, intellectual-property, or circumvention restrictions, subject to any rights or procedures required by applicable law. Upon termination you must stop using the Software and delete unauthorized copies. Provisions intended by their nature to survive termination, including ownership, disclaimers, liability limitations, and governing law, survive.

17. REFUNDS

You may request a refund of the fee, for any reason, within 30 days of purchase by contacting TAWILIS (see section 25). After 30 days, fees are non-refundable, except where required by applicable law or by mandatory terms of the authorized sales platform through which the Software was purchased. After a full refund, the license is cancelled and the license key or other activation credential can no longer be used for new activations. TAWILIS may also switch off a copy that is already activated, at its next online license check (see section 3). TAWILIS may refuse further purchases where refunds are requested repeatedly or the refund process is abused. A disputed or charged-back purchase cannot be activated, and an activation obtained from it may be switched off in the same way.

18. UNAUTHORIZED DISTRIBUTION AND ENFORCEMENT

Unauthorized copying, publication, distribution, resale, sublicensing, sharing of license keys, license files, or activation credentials, circumvention of licensing controls, or other use outside the scope of this Agreement constitutes a material breach and may also infringe applicable intellectual-property rights. TAWILIS reserves all rights and remedies available under applicable law.

19. CHANGES TO THIS AGREEMENT

TAWILIS may revise this Agreement from time to time. Material revisions applicable to an existing license will be communicated or presented in a reasonable manner where required by applicable law. A revised Agreement will apply to future purchases and may apply to continued use only to the extent permitted by applicable law.

20. PRIVACY AND LICENSING DATA

The Software stores EULA acceptance, activation, trial, and license-status records locally on the Host Computer. A random installation identifier and a computer fingerprint derived from device and system characteristics are used to bind the activation to one installation on one Host Computer. Your web sign-in (username, a secure hash of your password, and optional authenticator and recovery-email settings) is stored only on the Host Computer, and your browser keeps a sign-in cookie for this Software only.

When you activate with a license key, the Software sends that key and a one-way (hashed) form of the installation identifier and computer fingerprint to the TAWILIS License Service, which runs on Cloudflare. The service verifies the purchase with the sales platform (for example Gumroad) and records the license, the purchase reference, the purchaser's email address supplied by the sales platform, the hashed installation identifier, and activation dates, so that one-installation activation can be enforced and support or replacement requests can be handled. TAWILIS does not receive your market data, trades, portfolio records, API keys, or broker configuration files. The sales platform's own privacy terms apply to your purchase. The periodic license check sends only the license identifier and the hashed installation identifier. If you verify a recovery email address for your web sign-in, the Software sends that address and one-time codes to the TAWILIS email relay, which runs on Cloudflare and uses an email delivery provider, only to send verification and account-recovery emails; TAWILIS keeps only what is needed to deliver those emails and prevent abuse, and does not use the address for marketing. Apart from activation, license checks and recovery emails, the Software connects only to the data services you configure and the public sources described in section 10.

21. CONSUMER RIGHTS

Nothing in this Agreement is intended to exclude, restrict, or modify mandatory consumer rights or remedies that cannot lawfully be excluded, restricted, or modified in the jurisdiction applicable to you.

22. GOVERNING LAW AND JURISDICTION

This Agreement is governed by the laws of Singapore, without regard to conflict-of-law principles. Subject to mandatory rights or jurisdictional rules that apply to you and cannot lawfully be waived, the courts of Singapore have exclusive jurisdiction over disputes arising out of or relating to this Agreement or the Software.

23. SEVERABILITY AND WAIVER

If any provision is held invalid or unenforceable, it will be enforced to the maximum extent permitted and the remaining provisions remain in effect. Failure to enforce a provision is not a waiver of that provision or any other right.

24. ENTIRE AGREEMENT

This Agreement, together with any written license terms expressly issued by TAWILIS for your purchase, constitutes the agreement concerning your license to the Software and supersedes prior statements about that license to the extent permitted by law. A marketplace's mandatory purchase terms may also apply between you and that marketplace.

25. CONTACT

For licensing, activation transfer, support, or product inquiries, email TAWILIS at tawilis.official@gmail.com.
